# Hamworthy 225E 4<sup>TH</sup> 430W100

## Description

The Hamworthy 225E 4TH430W100 Compressor is a high-performance, fully automated compression system designed for demanding industrial applications. With a duty capacity of 225 scfm at 300 bar, this unit is powered by a robust 165 kW prime mover operating at 980 rpm. Featuring direct drive transmission and seawater cooling via a heat exchanger, it ensures efficient and reliable performance. Encased within a durable 20ft ISO container, the unit is built for both mobility and resilience, making it ideal for various operational environments.

## Key data

Make	Hamworthy
Model	225E 4 <sup>TH</sup> 430W100
Duty	225 scfm @ 300 bar (6.2m <sup>3</sup> /min)
Prime mover	165Kw, 980rpm, 278amps, 380 / 415v, 50Hz
Transmission	Direct drive
Cooling	Seawater via heat exchanger
Control	Fully automatic by pressure switch
Condensate	Timed drainage to a condensate tank
Control voltage	240v
Enclosure	20ft ISO Container, ARMU 8006645
Dimensions	606 x 244 x 260 cm
Weight	10,000 kg
