Compair Reavell 5236

Description

An electric, water-cooled compressor mainly used for industrial applications and manufacturing. These industrial compressors are commonly used with autoclaves in aerospace factories, in the moulding process in plastic manufacturing, and in petrochemical plants. They are also suitable for many other manufacturing and industrial applications that require operating pressures between 20 and 40bar.

Compair Reavell 5236

Key data

Make	Compair Reavell
Model	5236
Flow rate	246m ³ /hr
Max. pressure	40 bar
Prime mover	55kW electric motor with a 380V / 415V 50Hz supply
Control voltage	24V
Transmission	Direct drive
Cooling	Water cooled by integral radiator and / or heat exchanger
Control	Fully automatic by pressure switch
Condensate	Timed drainage to a receiver
Enclosure	DNV-certified steel crash frame
Dimensions	275 x 177 x 185 cm
Weight	3,040 kg
